What Is Copilot Chat In Model-Driven Apps? 🤔 💭

- An AI-Assistant embedded directly into your model-driven app
- Built-in ability to ask questions about your data, get a set of records and navigate to specific records using natural language
- Customizable in Copilot Studio where you can add your own knowledge and tools
- Can understand page/session context about what the User is currently viewing inside the app and adapt its behaviour

Enable Copilot Control For An App

Model-driven app for table data + SharePoint for file storage

Agents

Smart Paste

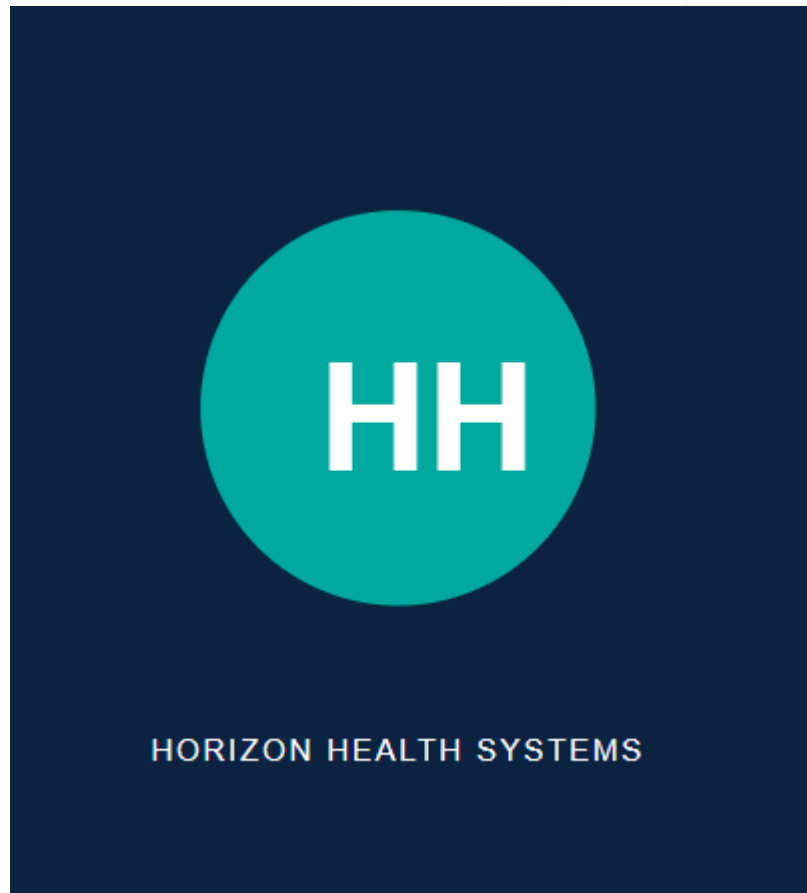

- Copy + paste any image or text to the clipboard
- Smart paste determines how to fill the form with no training
- Approve/reject all, or field-by-field

The screenshot displays the Power Apps interface for 'Vehicle Inspection Management X'. The left sidebar shows navigation options: Home, Recent, Pinned, Inspections, Contacts (selected), Inspections, Repair Quotes, and Vehicles. The main area shows a 'New Contact' form. At the top, there's a header bar with 'Power Apps' and 'Vehicle Inspection Management X'. Below it, a toolbar contains icons for back, forward, save, save & close, new, and flow. A notification states 'AI-generated content may be incorrect'. The form title is 'New Contact' with a sub-header 'Contact · Contact'. The user 'Matthew Devaney' is logged in as the owner. The form has two tabs: 'Summary' (active) and 'Details'. A 'Form assist' button is visible. A 'Clipboard data' box is highlighted, showing a list of sources to add. The form fields are as follows:

CONTACT INFORMATION	
First Name	Evelyn
Last Name	Moreno
Job Title	Senior Customer Success Manager
Account Name	---
Email	evelyn.moreno@horizonhealth.example.com
Business Phone	+1 415 555 0134
Mobile Phone	+1 628 555 0178

Copy + Paste This Business Card Into The Contact Form ✂
